EXPERIENCE

Co-Founder of **PlusDigital.com**

2009 - 2013

*PlusDigital is a digital agency I
co created. We provided
digital creative, and marketing
services to both local and
international companies.*

*I performed multiple roles - from
strategy and account management
to front-end design and online
marketing. Ultimately I was involved in
taking 50+ web projects from start to
completion and launch, giving me a great
knowledge of the web design process, and
how to build a brand online.*
